more **professional!**”

"We make E-car recycling more professional!"

## SEDA HV Fire Containment Blankets

N-527960 - N-527966

### Your benefits:

- made of special high-temperature fabric
- mineral vermiculite coating on both sides
- thermal application up to 1,300 °C, melting point 1,600 °C
- no fiber breakage when exposed to temperature changes (fiberglass ceilings, etc.)
- **open-pored fabric allows the use of extinguishing and sprinkler water (cooling effect)**

Attachment of the HV fire containment blanket:

E-Mobility & HV accumulator protection

**For E-Cars**

### BS-Set: in a trolley

N-527960 Fire containment blanket 7,5 x 9 m

N-527962 Fire containment blanket 6 x 8 m

### BS-Set: in a bag

N-527961 Fire containment blanket 7,5 x 9 m

N-527963 Fire containment blanket 6 x 8 m

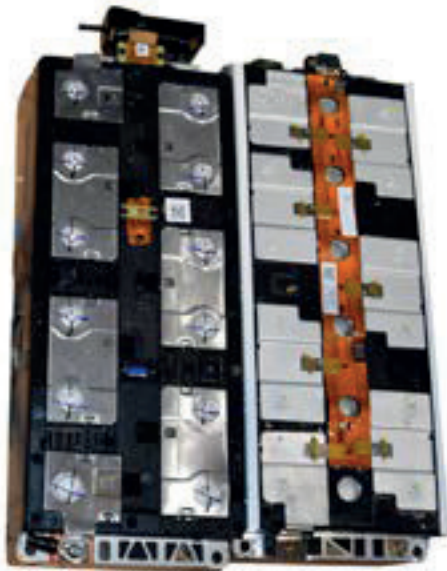

### BS-Set: a bag in a box

N-527964 Fire containment blanket 6 x 8 m

# SEDA HV Fire Containment Blankets

N-527960 - N-527966

## E-Mobility & HV accumulator protection

### For HV accumulators

#### BS-HV Set: in a box

N-527965

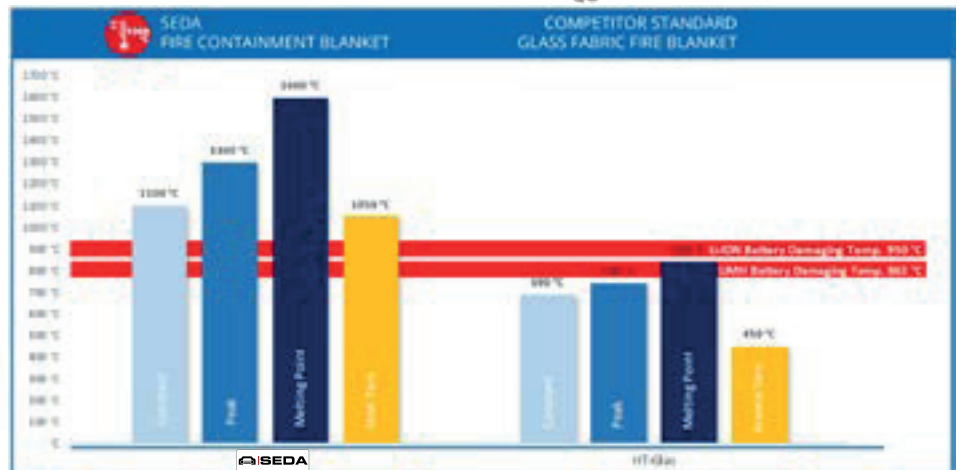

HV battery safety box: fire blanket  
2,7 x 3 m, 2 x gloves, 2 x respirator masks  
incl. 2 x safety goggles

#### BS-HV Set: in a trolley
